Suggestions for Adding a School Name or Team Logo To a Sammy/Aqua Towel

Suggestion 1:

Start by using water based ink on the damp Sammy/aqua towel. Proceed by running it through a drying process for screening. After drying, re-wet the towels and fold them back up and seal the towels into the bags. If the Sammys are going to be used right away, just fold and put back into the containers without re-sealing the bags. Please inform the customer that bacteria may set in the material so be sure to wash.

Suggestion 2:

Take the Sammy to a local artist who specializes in airbrushing tee shirts and have your Sammy airbrushed with your school name or team logo. The airbrushing creates a very nice look.
