

Your Complete Source for Springboard & Platform Diving Equipment and Supplies

These Sammies will Bleed

These sammies have been soaked in a solution of soda ash and water before dying and washed in cold water with laundry detergent after dying. Jaquard Textile Dyers are used following their instructions. There will be minimal fading and initial dye loss after the first few times they are used. Please store in a plastic bag while new so the dye does not bleed onto other fabrics. Dry out at home. You may wash in warm water with detergent. Do not bleach. Since dyes are used in this process, if skin irritation occurs please discontinue use. **DO NOT SUCK OR CHEW ON YOUR SAMMIES – YOU MAY BE INGESTING DYE, SODA ASH, OR ANYTHING ELSE THAT IS GROWING IN YOUR BAG OR IN THE POOL – IT'S GROSS!**

*The following warning occurs on the dye bottles referring primarily to the dye process:

Potential eye and skin irritant. Avoid eye contact. Wear rubber gloves. Use common sense and good housekeeping when handling dye and powder. Avoid creating dust and use in a well-ventilated area. Adult supervision required for use by children. This label conforms to ASTM D4236-89
