Your Complete Source for Springboard & Platform Diving Equipment and Supplies

DURAFIRM 1M SPRINGBOARD TOLERANCES

COMPETITION- If stand is going to be in the higher of the tolerance range.

RECREATION- If stand is going to be in the lower of the tolerance range.

Also, the Duraflex International Corporation NOW makes a 1M stand tall enough for mounting a board on a pool with a zero deck-to-water level without either building a 3 inch elevated pedestal, or *allowing the +/- 2 inch tolerance specified in FINA diving rule book as in the past.*

Another option, where an exact one-meter installation is required, is to purchase a Durafirm "Short" Stand, and mount it on a pedestal or platform that is elevated 25 inches above the water level.
