## How to Clean your Stretching Mats and Landing Mats

Cleaning of vinyl:

- A. Before using any cleaning solution on your mats, test a small obscure area of the mat to make sure no damage occurs to the vinyl.
- B. Daily cleaning with mild soap and warm water is recommended to insure proper hygiene.
- C. After washing, rinse with warm water to remove soap residue and then dry with a towel.
- D. A very mild solution of pine sol, or even simple green or orange cleaner is recommended. Test a small portion first and keep the solution very mild.

**DO NOT use any cleaning agent containing chlorine. Chlorine will damage the vinyl!**

To clean mats and protect against blood borne pathogens (i.e. HIV and Hepatitis B virus) we recommend that you use of the following tuberculocidal product, which will not damage vinyl in mats.

Precise Hospital Foam Cleaner Disinfectant

Item #40513

Caltech Industries, 2420 Schuette Drive, Midland, MI 45542

Call 1-800-234-7700 for the name of your local distributor.
